

HELPING FAMILIES FOCUS ON THE FUTURE

AWARD WINNING, PROFESSIONAL AND UNIQUE MEDIATION SERVICE

Mediation is a voluntary process that enables parties either separating, divorcing or choosing to co-parent to meet with a family mediator, who acts impartially, to help them to make their own informed decisions regarding their future finances and/or arrangements for their children.

Mediation can be less costly than court proceedings. It can also result in a quicker outcome and allows the parties to make the decisions and therefore still feel in control of their future and those of their children.
